

FOLLOW OUR GOOD NAME!

Welcome to the SCC-family: We are one of Europe's biggest consultancy companies in the regulation sphere, a respected partner of the chemical and pharmaceutical industry, and, for more than 160 experts from different countries, a professional home. Our passion: managing registration and approval procedures for agrochemicals and biorationals, chemicals, biocides as well as pharmaceuticals and medical devices. Our goal: to grow even further and to open up new areas of business in an international client environment. In the personal, open working culture of a family business that is focused on caring for its team. Located at the heart of the Rhine-Nahe region, alongside nature, but also right next to the vibrant Rhine-Main area.

Expand our scientific expertise as

TOXICOLOGIST (M/F/D) – REGULATORY SCIENCE

BAD KREUZNACH

WHAT YOU CAN EXPECT

- Your path is leading into a team of currently fifteen toxicologists – and right into our enormous diversity of projects.
- Your task: preparing dossiers, risk assessments, expert statements etc., engaging various regulatory backgrounds.
- Your mission: Toxicological assessments of diverse substances in the fields of plant protection (chemical and biological including microorganisms)
- Your focus: evaluation of challenging toxicological projects, assessing e.g. the potential for developmental neurotoxicity or for endocrine disruption.

WHAT WE OFFER

- Flexible working hours as well as the possibility of mobile working
- Intensive on-the-job training and opportunities for personal and professional development
- An appreciative working environment
- An attractive salary with profit-sharing, bonuses and benefits (company pension plan, food allowance, etc.)
- A very good working atmosphere in a team supported by corporate events and socializing outside of work

Do you thrive on challenging projects in an interdisciplinary team of ambitious professionals? Then apply online via the link below!
