

FOLLOW OUR GOOD NAME!

Welcome to the SCC-family: We are one of Europe's biggest consultancy companies in the regulation sphere, a respected partner of the chemical industry, and, for more than 160 experts from different countries, a professional home. Our passion: managing registration and approval procedures for chemicals such as agrochemicals, biocides, etc. Our goal: to grow even further. In an international client environment. In the personal, open working culture of a family business that is focused on caring for its team. Located at the heart of the Rhine-Nahe region, alongside nature, but also right next to the vibrant Rhine-Main area. Expand our scientific expertise as

MICROBIOLOGIST (M/F/D) – DEPUTY GROUP LEADER

BAD KREUZNACH

WHAT YOU CAN EXPECT

- Your path is taking you into a team of currently 25 people – and right into our enormous diversity of projects
- You will act as a Deputy to the Group Leader.
- Your task: assessment of efficacy of various substances and products mainly in the field of biocides and managing projects in the field of registration under the BPR and other biocidal regulations
- Your mission: in collaboration with your colleagues, you will prepare efficacy assessments, plan/coordinate efficacy studies and engage in various regulatory projects
- Your focus: to obtain approvals/authorisations for our client's active substances/biocidal products in the European market

WHAT YOU OFFER

- Science degree in natural sciences (microbiology or related scientific disciplines)
- At least 5 years' experience in efficacy of biocide products and in dealing with regulation of biocides
- First leadership experience would be advantageous
- Ability to tackle and coordinate complex issues effectively
- Confident using current office programs. Experience with regulatory software tools such as IUCLID, R4BP3 and/or the SPC-Editor is of advantage
- A talent for organisation, goal orientation and awareness of deadlines is a must
- Strong communication and presentation skills in German and English

WHAT WE OFFER

- Flexible working hours as well as the possibility of mobile working
- Intensive on-the-job training and opportunities for personal and professional development
- An appreciative working environment
- An attractive salary with profit-sharing, bonuses and benefits (company pension plan, food allowance, etc.)
- A very good working atmosphere in a team supported by corporate events and socialising outside of work

Do you thrive on challenging projects in an interdisciplinary team of ambitious professionals? Then apply online via the link below!
