

FOLLOW OUR GOOD NAME!

Welcome to the SCC-family: We are one of Europe's biggest consultancy companies in the regulation sphere, a respected partner of the chemical and pharmaceutical industry, and, for more than 160 experts from different countries, a professional home. Our passion: managing registration and approval procedures for agrochemicals and biorationals, chemicals, biocides as well as pharmaceuticals and medical devices. Our goal: to grow even further and to open up new areas of business in an international client environment. In the personal, open working culture of a family business that is focused on caring for its team. Located at the heart of the Rhine-Nahe region, alongside nature, but also right next to the vibrant Rhine-Main area. Expand our scientific expertise as

MICROBIOLOGIST (M/F/D) - REGULATORY AFFAIRS

BAD KREUZNACH

WHAT YOU CAN EXPECT

- Your path is taking you into a team of currently 29 people – and right into our enormous diversity of projects.
- Your tasks: assessment of efficacy of various substances and products mainly in the field of biocides and managing projects in the field of registration under the BPR and other biocidal regulations.
- Your mission: in collaboration with your colleagues, you will prepare biocidal active substance or product dossiers, plan and coordinate studies and engage in various regulatory projects
- Your focus: to obtain approvals/authorizations for our client's active substances/biocidal products in the European market

WHAT WE OFFER

- Flexible working hours as well as the possibility of mobile working
- Job Bike
- Intensive on-the-job training and opportunities for personal and professional development
- An appreciative working environment
- An attractive salary with profit-sharing, bonuses and benefits (company pension plan, food allowance, etc.)
- A very good working atmosphere in a team supported by corporate events and socialising outside of work
