SCIE

A close-up photograph of a person's hands using a red continuity tester on a network switch panel. The panel features several circuit breakers labeled Q3, Q4, Q5, Q6, and Q7, each with a yellow label. Blue network cables are plugged into the switch ports. The person is holding the red tester against a port, and the device's display shows a green light and a triangle symbol, indicating a connection. The background is slightly blurred, showing the person's head and shoulder.

The image features a laboratory setting with a microscope in the foreground. The microscope's objective lenses are prominent, and a metal component below them is engraved with 'MPA NRW' and '4420301.0612'. In the background, a person in a white lab coat is working at a workstation. The Scherdel logo, a stylized 'S' in a square, is positioned on the left, followed by the brand name 'SCHERDEL' in a large, bold, white sans-serif font.
