

FOLLOW OUR GOOD NAME!

Welcome to the SCC-family: We are one of Europe's biggest consultancy companies in the regulation sphere, a respected partner of the chemical, biotechnological and pharmaceutical industry, and, for more than 160 experts from different countries, a professional home. Our passion: managing registration and approval procedures for chemicals and biologicals such as agrochemicals and biorationals, biocides, etc. as well as for pharmaceuticals and medical devices. Our goal: to grow even further and to open up new areas of business in an international client environment. In the personal, open working culture of a family business that is focused on caring for its team. Located at the heart of the Rhine-Nahe region, alongside nature, but also right next to the vibrant Rhine-Main area.

Expand our scientific expertise as

TECHNICAL RESIDUE EXPERT (M/F/D)

BAD KREUZNACH / BERLIN / REMOTE
Full-time

WHAT YOU CAN EXPECT

- Your path is taking you into a team of currently 70 people – and right into our enormous diversity of projects.
- Your task: You will be involved in the planning and monitoring of field and livestock studies conducted at Contract Research Organizations where the concentration of agricultural active ingredients and metabolites in various matrices (e.g. plant, animal) will be determined.
You will also review and summarize analytical methodology and residue data, and prepare written reports to meet regulatory requirements and product safety concerns.
Preparing risk assessments in order to obtain approvals for our client's products in the European market is also a task.
- You will work within an interdisciplinary team to reach this goal.

WHAT WE OFFER

- Flexible working hours as well as the possibility of mobile working
- Intensive on-the-job training and opportunities for personal and professional development
- An appreciative working environment
- An attractive salary with profit-sharing, bonuses and benefits (company pension plan, food allowance, etc.)
- A very good working atmosphere in a team supported by corporate events and socialising outside of work (currently only limited possible because of the corona pandemic)

Do you thrive on challenging projects in an interdisciplinary team of ambitious professionals? Then apply online via the link below!
